

# Assignment 2

Submission Deadline: Thursday 23rd February 12pm

## Update

*Congratulations, you got the job!*

Central Retail Corporation (CRC) called yesterday to say: “Wow! Love the prototype! Can you build us a complete iPhone app for Central Plaza?”

CRC have asked you to develop more features for the application. In particular, they would like you to add a map of the Central Plaza stores for the whole of Thailand. You can also add any other features as appropriate.

ใช้จินตนาการได้!

## Requirements

Extend your iPhone application from Assignment 1. The app should contain a map of the Central Plaza stores in Thailand. When you select a store, it should show you the shops inside the store. For extra marks, you can add any new features to the app. For example: news or events, store maps, promotions, link to Facebook page.

Resources: <http://www.centralplaza.co.th/aboutUs.aspx>, <http://www.centralplaza.co.th/Upcoming-th-0-0-0-0.aspx>, <http://www.centralplaza.co.th/Promotions-th-0-0-0-0.aspx>, <http://www.facebook.com/CentralPlaza.th>

## Guidelines

- Work in the same groups as Assignment 1.
- Do not copy code from others, and do not give your code to others. *Your code will be checked and if you have copied then you will lose your marks or fail!*

## Assessment

Your work will be assessed as follows:

- Added a map to the app, included pins and linked to other views.
- Added other new features (extra marks for originality!).
- Good use of OOP.
- Good coding style.
- Compiles and runs without errors.

## Submission

Please submit your code (as a zip file) by email to [antonyh@nu.ac.th](mailto:antonyh@nu.ac.th) and include your names and student codes.
